

Industrial solutions for demanding applications

Spelsberg at the all about automation in Hamburg

Schalksmühle, 27.05.2026. Spelsberg presents itself at the all about automation in Hamburg as a high-performance partner for the industry. On 2–3 June 2026, the manufacturer from Schalksmühle will present, among other things, its comprehensive portfolio of high-quality enclosure solutions and practical services for demanding industrial applications.

The focus of the trade fair presence is on industrial enclosures that impress with robustness, flexibility and high protection classes. They provide reliable protection for sensitive electronics – even under challenging conditions such as dust, moisture or mechanical stress. The range is complemented by specially developed outdoor enclosures that are designed for long-term outdoor use and can withstand extreme weather conditions.

Comprehensive product range along the industrial value chain

As an expert in electrical installation and enclosure technology, Spelsberg goes beyond simply supplying products: The provider of innovative complete solutions supports its customers along the entire value chain - from individual consultation to customer-specific adaptations. The aim is to create customized products that are precisely tailored to the requirements of modern industrial applications.

"The all about automation in Hamburg is an ideal platform for us to underscore our role as a reliable partner for industry," says Jörn Lindert, Head of Marketing at Spelsberg. "Our customers benefit from both high-quality enclosures and our comprehensive solution expertise"

About Spelsberg

Spelsberg is one of the internationally leading manufacturers in the electrical industry and is primarily active in the field of electrical installation and enclosure technology. The family-owned company with around 600 employees develops, produces and sells products and systems for the electrical trade and industry and is regarded as a competent problem solver for all enclosure-related tasks. Spelsberg has stood for safety, high quality and technical performance for over 120 years and has its own VDE- and UL-certified test laboratories. The range includes over 5,000 widely available articles, including junction boxes, small distribution boards, terminal blocks, meter enclosures and industrial enclosures. Furthermore, the family-owned company develops, manufactures and markets enclosure as well as ready-to-wire systems tailored to customer-specific requirements. The enclosure specialist combines tradition and modernity: with the expansion into the e-mobility business sector, Spelsberg is positioning itself more broadly in the field of sustainable and forward-looking technologies.
